Charter

2018 Annual Plan

Strategic Plan 2018 – 2020

Challenging Students to Achieve – Kia Whakatane Au I Ahau

Introduction

Whakatāne High School is a co-educational secondary school, located in the Whakatāne urban area. Students come to the School from across the Eastern Bay of Plenty with 30% travelling in from the surrounding rural area. Our history starts in 1920 with our establishment as a District High School and we became a full High School in 1950. The student role is currently around 900 with a teaching staff of over 50 teachers and 20 support staff.

Approximately 50% of our student population are of Māori Descent. Students affiliate with Ngāti Awa, Ngāi Tūhoe, Te Whānau a Apanui, Te Arawa, Tūwharetoa and other iwi. This naturally leads to expressions of Māori culture being seen throughout our School and inside our learning programmes.

The School has a strong culture of creating a sense of family/whānau for students and we continually strive to see all parents, families, whānau and caregivers engaged with the School. We offer the ability for students and the community to discuss and shape the future of their learning and contact with us.

The Board of Trustees and School leadership endeavour to maintain a safe and caring learning environment that is inclusive of all students. Our aim is that all students leave our School proud of what they have achieved, extended to their potential, and able to go into the world as well balanced, informed and enquiring individuals.

We respect our important traditions but are focusing firmly on the need for students to be digital citizens of a changing world.

The School's Mission Statement

The Mission Statement summarises the school's and the community's vision for its students and reflects the reason for the school's existence. The Whakatane High School Mission Statement is:

Challenging Students to Achieve!

The essence of this statement is conveyed in Māori by the famous statement attributed to Wairaka, daughter of Toroa the chief of the ancestral Mataatua canoe, according to Ngāti Awa tradition.

The canoe was anchored in the Whakatane River while the men went ashore to assess the welcome they would be afforded by the tangata whenua. Meanwhile the changing tide dislodged the canoe from its moorings. The waka started to drift away with Wairaka, the other women and children aboard.

Women were not permitted to paddle the canoe under normal circumstances but rather than see the waka fall to the fate of the river's current and rocky outcrops, Wairaka called out "Kia Whakatane Au I Ahau", which translates as "I will act as a man". She manoeuvred the canoe back to shore, therefore diverting a potential tragedy.

Her famous saying has been the school's motto from its beginning and is now used to encapsulate the qualities of leadership, determination, achievement and success to which the new Mission Statement alludes. The Mission Statement in Maori:

Kia Whakatane Au I Ahau!

What school processes and practices are effective in enabling achievement of equity and excellence?

A special feature of the college is the extensive range of targeted initiatives and approaches to support the needs of at-risk learners. Good systems for monitoring and tracking the progress of students are well established. Many at-risk students engaged in these initiatives make good progress in their learning. The curriculum is increasingly responsive to the needs of all learners.

There are strong processes for building teacher capability. A coherent programme of professional learning and development focused on relational and culturally responsive pedagogy has lifted teachers' responsiveness to many Maori students. Professional learning groups offer an effective forum for teachers' to reflect on and discuss approaches to teaching. Teachers are well supported to improve their classroom practice. (Education Review Office report, November 2017).

School-wide Achievement

NCEA results show consistent improvement and are at a good level significantly above that of students in schools of the same decile.

The Accelerated Learning Programme operating in Years 9 and 10 caters for able students and extends and encourages those with above average ability and those with very positive attitudes to learning. A Special Learning Needs centre manages a series of programmes designed to match the learning needs of identified students with the most appropriate courses.

Whakatane High School is a member of the Whakatane Community of Learning (COL). The cluster application was formally accepted by the Ministry of Education in February 2016 and has grown to include ten local schools. The COL schools are developing approaches to raise educational outcomes for all local students. The Whakatane High School Principal currently leads the COL.

The Gateway Programme provides senior students with work-place learning opportunities to gain credits on the NQF towards nationally recognised qualifications. Whakatane High School is a part of the Eastern Bay Trades Academy. Students study a range of trades, with the aim of gaining a Level 2 National Certificate.

Whakatane High School is a member of the 'Volcanics' e-cluster, and offers video conference learning via the virtual learning network.

Whakatane High School is the managing school for the Whakatane Teen Parent Unit which opened in 2017. This unit serves the young parents of the wider Whakatane region. It has been developed in conjunction with Ngati Awa and the Ministry of Education. It is based at the Te Tohu o te Ora o Ngati Awa site on Golf Links Road, and caters for up to twenty students. Two full time teachers were employed by the school to manage this programme.

Te Aka Matua and Te Reo Māori

Te Aka Matua

The *Te Aka Matua* (TAM) programme continues to provide students with an inclusive and culturally appropriate environment underpinned by the values of whanaungatanga, manaaki and taha wairua. A weekly TAM assembly incorporates waiata and karakia and is used to affirm and celebrate Māori success as Māori. All students are able to participate in Māori performing arts, other cultural initiatives and waka ama. Teachers responsible for TAM model high expectations and effective teaching strategies to engage Māori students in learning and wider education. Students in TAM programmes are benefiting from relationships that affirm the place of te reo me ona tikanga Māori in the school.

Students wishing to receive learning opportunities in Te Reo and Tikanga Māori are able to enter Te Aka Matua classes and Te Reo Māori classes Years 9 and 10 and NCEA Levels 1-3.

Co-curricular Opportunities

Students and staff have a reputation for involvement in a wide range of extra-curricular activities including kapa haka, debating, dramatic and musical productions and a wide range of both summer and winter sports codes. Many teams and individuals are ranked nationally in both sporting and cultural endeavours. In 2017, 20 students were selected for national teams and seven won national titles. Coaches and managers for teams are drawn from both the staff and wider community.

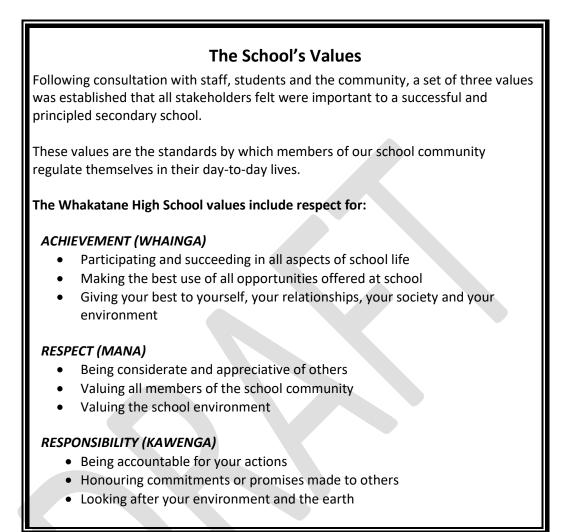

Relationship Management - Career and Pastoral Guidance

A feature of the school is the positive and mutually respectful relationships between students and staff. Students and parents value the time and energy teachers give to promoting academic achievement and facilitating an extensive range of co-and extra-curricular opportunities. A well-coordinated pastoral care network maintains regular communication with families and supports students' social and emotional development.

The school has developed restorative practices as part of their behaviour management initiatives. Students are aware of, and have confidence in, the guidance, health and careers support services available to them. The school has regular contact with a wide range of outside support agencies. The school participates in the Positive Behaviour for Learning (PB4L) programme to further enhance the learning environment of the school.

The Board of Trustees' Commitment

The Board of Trustees and staff remain focused on realising the National Education Goals through the implementation of the National Administration Guidelines for all students at Whakatane High School in accordance with the school's Mission Statement.

Depicting the School Values

A Māori graphic or design represents each of the school's three values. The explanation for each is as follows:

ACHIEVEMENT (WHAINGA)

This is represented by a *kete* or kit, a taonga (special treasure) containing knowledge. As students progress through Whakatane High School, they are gathering knowledge, skills and attitudes that will equip them for the next stage in their lives, to tertiary education or employment. As their education progresses, so more knowledge is gathered in their *kete*.

RESPECT (MANA)

Respect is a two-way process represented by the *kowhaiwhai* design. The symmetry of the pattern depicts the equality of respect we should have for each other.

RESPONSIBILITY (KAWENGA)

The large fronds represent the school's *tuakana*, the senior students, who have a responsibility to look after and nurture the *teina*, the younger students in the school. Together, they form the school *whanau*, each taking responsibility for another.

The School's Strategic Goals

The Strategic Goals of Whakatane High School are expressed in **five key statements** that address all the features of a successful and responsive educational organisation and recognise the role of all stakeholders in fulfilling the Mission Statement.

- 1. To provide a learning environment that challenges and enables all students to develop their potential
- 2. To manage the human, physical and intellectual resources of the school to provide a learning environment to maximise student learning and achievement
- **3.** To provide a healthy, safe and caring environment that focuses on students' responsibilities and rights
- 4. To ensure there is effective communication between the school and its community
- 5. To demonstrate in governance and management an obligation to fulfil the intent of the Treaty of Waitangi

In the next sections the above strategic goals have been further refined in terms of Strategic Statements. These provide further detail on what elements make up the Strategic Goals that the School is working towards. Following this, the section on Annual Planning identifies the actions, activities and monitoring that will occur against each strategic statement for a three year period.

- Strategic Statements: Page 6 to 8
- Annual Planning: Pages 9 to 13

The last section of the Charter focuses in on the Annual Goals for 2018. These are areas that the Board of Trustees and the School leadership see as priority areas. This section provides a more in-depth look at what is planned and how it will be delivered for these 'priorities'.

The Strategic Plan 2018 – 2020

Strategic Goal 1

Whakatane High School will provide a learning environment that challenges and enables all students to develop their potential

The four strategic statements that will inform annual planning related to Strategic Goal 1 are:

- 1.1 Whakatane High School will have a range of teaching programmes that meet the learning needs of students and challenge them to achieve to their potential
- 1.2 Evidence-based practice will inform decision-making in all areas of school management including the design of teaching programmes, professional development of staff and all initiatives designed to enhance student achievement
- 1.3 Information and Communication Technology (ICT) will be used and integrated into programmes at all levels of the curriculum to enhance students' learning and to equip students for the advancing technological world of the future
- 1.4 The numbers of students leaving Whakatane High School with nationally recognised qualifications will surpass the New Zealand mean

Strategic Goal 2

To manage the human, physical and intellectual resources of Whakatane High School to provide a learning environment to maximise student learning and achievement

The five strategic statements that will inform annual planning related to Strategic Goal 2 are:

- 2.1 The Board of Trustees will manage its financial resources in the most effective manner to maximise students' learning and achievement
- 2.2 The Board of Trustees will endeavour to provide students and staff with current Information and Communication Technology (ICT) resources to maximise the effectiveness of teaching programmes and student learning
- 2.3 The Board of Trustees, through its recruitment, staff development and EEO policies will ensure that it is viewed as a 'good employer' and the school is staffed with qualified practitioners
- 2.4 A School environment that supports student achievement and the School's values will be maintained and enhanced by the Board of Trustee

2.5 A performance management process will support all staff in achieving the Strategic Goals of the School

Strategic Goal 3 To provide a healthy, safe and caring environment that focuses on students' responsibilities and rights

The four strategic statements that will inform annual planning related to Strategic Goal 3 are:

3.1 All stakeholders of the school will be informed of their responsibilities and rights in fostering a safe learning environment

3.2 The school will foster policies/systems and procedures that support the health and well-being (Hau Ora) of students and staff

3.3 The school will foster an environment based on the school's values and a caring family atmosphere (whanaungatanga)

3.4 A sense of belonging and pride in the school will be fostered and maintained

Strategic Goal 4

To ensure there is effective communication between the school and its community

The three strategic statements that will inform annual planning related to Strategic Goal 4 are:

4.1 Whakatane High School will engage with families and whanau to establish partnerships that are directly focused on enhancing students' achievement and well-being

4.2 Whakatane High School will form partnerships with community organisations, businesses and networks to enhance student learning and well-being

4.3 On-going engagement with the school's community will occur to establish and foster high expectations for students' achievement and learning

Strategic Goal 5 To demonstrate in governance and management an obligation to fulfil the intent of the Treaty of Waitangi

The Board of Trustees recognises three principles arising from the Treaty:

1. Rangatiratanga: protect and nurture Māori taonga such as Te Reo Māori and Tikanga within the school

2. Equality: seek equal educational opportunities and outcomes for Māori and non-Māori students

3. Reasonable co-operation: the Board accepts that reasonable co-operation can only take place if there is consultation between the school and the Māori community on major issues of concern, and if good faith and balance are shown on all sides. The outcome of reasonable co-operation is partnership.

The three strategic statements that will inform annual planning related to Strategic Goal 5 are:

5.1	The school will implement initiatives to achieve the principles of rangatiratanga, equality and
	reasonable co-operation inherent in the Treaty

5.2 The school will review policies, plans and targets, in consultation with the Māori community, for improving the achievement of Māori students and report on the effectiveness of these measures

5.3 The school will implement programmes to raise the academic achievement of Māori students
